

## 3<sup>rd</sup> International Workshop on Distributed Agent-Based Retrieval Tools.

15th September 2009 Università degli Studi di Milano Bicocca, Milan, Italy

<http://www.dart-project.org/dart2009>

held in conjunction with the **2009 IEEE/WIC/ACM International Conference on Web Intelligence (WI 2009)** and **Intelligent Agent Technology (IAT 2009)** <http://www.wi-iat09.disco.unimib.it/>

The Web is changing into a vehicle of structured and heterogeneous contents. In our vision, the goal of next generation information retrieval tools will be to support semantics, personalization, context awareness and seamless access to highly variable data and messages coming both from document repositories and ubiquitous sensors and devices. DART'09 is aimed at putting together practitioners and researchers working on pervasive and intelligent access to web services and distributed information.

The workshop topics of interest include, but are not limited to:

Semantics and Ontology Engineering  
Mobile and Ubiquitous Services and Applications  
Intelligent Web Interaction  
Human-Agent Interaction

Web Personalization and Recommendation  
Web Agents  
Web Information Filtering and Retrieval  
Sensor and Multimedia Mining

All submitted papers will be reviewed on the basis of technical quality, relevance, significance, and clarity. Accepted papers will be published in the Proceedings of WI-IAT09 Workshops, IEEE-CS Press.

For any further information refer to the workshop website or contact directly the workshop chairs and organizers:

**Alessandro Soro** – CRS4, Center for Advanced Studies, Research and Development in Sardinia. Parco Scientifico della Sardegna – Italy – [asoro@crs4.it](mailto:asoro@crs4.it)

**Eloisa Vargiu** – DIEE, Dept. of Electrical and Electronic Engineering – University of Cagliari – Italy – [vargiu@diee.unica.it](mailto:vargiu@diee.unica.it)

### Important Dates:

Full papers submission:	April 30, 2009
Notification of paper acceptance to authors:	June 8, 2009
Camera-ready of accepted papers:	June 30, 2009
Workshop day:	September 15, 2009

Authors of selected papers will be invited to submit an extended version of their work for inclusion in the book:

## Information Retrieval and Mining in Distributed Environments

Alessandro Soro, Eloisa Vargiu, Giuliano Armano and Gavino Paddeu (eds.)

To be published by Springer Verlag within the series Studies in Computational Intelligence (Series Ed.: Kacprzyk, Janusz, ISSN: 1860-949X).
